Rate Information. For dividend bearing accounts, the dividend rate and APY may change every dividend period based on the determination of the Credit Union Board of Directors. Savings Accounts are subject to a Fixed Rate. Your account will earn dividends according to the daily balance in your account related to the table above.

Minimum Balance Requirements. To open any account, you must deposit or already have on deposit at least the par value of one full share in any account. The par value amount is stated in the Fee Schedule [verify the par value is disclosed]. The minimum balance requirements applicable to each account are stated above. For Savings accounts, the minimum balance is included in all reports listing balance information, but is not included in the "available balance." If the minimum daily balance is not met each day of the dividend period, you will not earn the stated Annual Percentage Yield.

Minimum Balance to Avoid Fees. If the minimum daily balance shown above is not met during each day of the dividend period, you will be charged a service fee as stated in the Fee Schedule.

Transaction Limitations. During any statement period, You may not make more than six withdrawals from or transfers to another Credit Union Account of Yours or to a third party by means of a draft, debit card (if applicable), pre-authorized or automatic transfer or telephonic order or instruction. If you exceed these limitations, your account may be subject to a fee or be closed. The Credit Union reserves the right to require a member intending to make a withdrawal to give written notice of such intent not less than seven days and up to 60 days before any such withdrawal.

Christmas Club Account: Unless you specify otherwise, your account balance will be distributed automatically via check in the first week of October without penalty and the account will remain open.

Nature of Dividends. Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period.

Compounding and Crediting. The dividend period is monthly from the 1st day of each month to the last day of each month and dividends will be calculated on your average daily balance for each day on which your balance equals or exceeds the required minimum balance. At your option, dividends will be compounded and credited to your account or will be paid directly to you or to another credit union account of yours.

Balance Computation Method. For dividend bearing Accounts, dividends are calculated by the daily balance method which applies a daily periodic rate to the principal in Your Account each day.

Accrual on Non-cash Deposits. For dividend bearing Accounts, dividends will begin to accrue on the business day that You deposit non-cash items (e.g. checks) into Your Account. If you close your account before accrued dividends are credited, you will not receive the accrued dividends.

Fees and Charges. Any fees and charges applicable to Your Account are disclosed separately in the "Fee Schedule" provided in conjunction with this Account Disclosure.
